FEEDBACK BY PARTICIPANTS ON FDP - INNOVATIVE TEACHING AND ASSESSMENT METHODS. CONDUCTED ON 24TH JULY 2024.

What did you enjoy most about today's Program?
Participants involment, Activities
Organised approach, Rocket launching
Learning about OSCE and OSPE, MCQ session and activity, MCQ framing
Interactiveness, keeping the topic simple, clear and understandable. Keeping the sessions lively throughout.
Ice breaking session n other sessions were in sequence, key points at end of each session
He was confident in his speech. It was convincing
Excellent Presentation and content. very nice teacher / resource person
Dr.Tejaswi made sure that everyone were understanding the topic and was very clear with the points!
Each concept was explained with adequate and appropriate examples which helped to understand the concept to the fullest.
Practical insights, Problem in implementing the OSPE
Comments about logistic aspects (if any)
It was difficult to view the screen for the groups who were sitting in last row ...so it would be better if there can be re placements of the group two seating arrangement.
Many of the aspects about mcqs and ospe we already knew. Clinical n preclinical ospe n mcqs should be discussed separately
Didn't happen according to the time schedule still managed to complete within given time. Organization was good
Placement of tables was too close & blocked the screen.
Any suggestions for future FDP topics?
Hands on OSCE and OSPEs, AETCOM & SDL teaching & assessment
Innovative teaching methods, Innovative methods during didactic lectures
Kindly include different teaching methodologies may be each in one session
Would like to have more and more newer/ less known topics to be taken up.
Validation of QP and innovative teaching method
Skill labs, Use of AI tools in teaching
More time allotment
Reduce duration of class, more breaks in between.
